**ELEGANT, LOW
MAINTENANCE STYLE FOR
HOMES & OFFICES.**

WHY CHOOSE US

01

UV - RESISTANT

We use UV-Resistant automotive paint to finish each planter, ensuring it is best protected from prolonged exposure to strong sunlight.

02

LIGHTWEIGHT

A vast majority of our planters can be picked up single handedly and can be installed with ease.

03

INDOOR FRIENDLY

Our planters have been tested in low and high temperatures and can remain indoor without any hassle.

04

OUTDOOR FRIENDLY

Rain or shine, your precious plants are safe in our containers. Place them outdoors with our bottom trays to ensure there is no water seeping into your floors.

CARE AND MAINTENANCE

- Strictly use lightweight potting soil when planting to avoid damage such as bowing or cracking.
- To maintain the best look to your planter, wash regularly and lightly wax the surface if required. Do not use aggressive cleaning agents or high-pressure water.
- Use a wash cloth and warm soapy water as needed. Avoid using materials which may scratch your planters such as steel wool or other abrasive sponges.

It is very important to only use potting soil formulated for planters and container gardening. This is usually, but not always, a mixture of soil and peat but can vary according to mixture. To ensure you are using the correct type of potting soil for your plant(s), check with a professional to determine the correct regional and plant specific soil to be used.

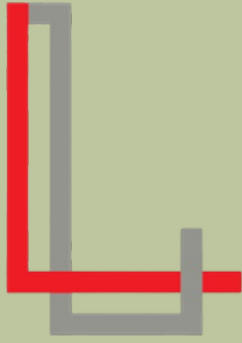

Additionally, if you are using your planter outdoors it is necessary to drill sufficient drainage to allow excess water to drain from the planter. Drill a hole (minimum 8mm) into the base. Improper installations and other forms of misuse may void the product warranty.

If you are using your planters indoors, drainage holes are not recommended.
